R. B. S. 35 MATERIAL SAFETY DATA  
SHEET  
(物質安全資料表)

Physical and chemical properties(物理和化學性質)

|                                                          |                                          |                           |                                               |
|----------------------------------------------------------|------------------------------------------|---------------------------|-----------------------------------------------|
| Physical state(物質狀態)<br>Liquid(液體)● Powder(粉末)○ Gaz(氣體)○ |                                          | Colour(顏色)<br>Milky-white | Odour(氣味)<br>Odourless(無臭無味)                  |
| Freezing point<br>(凝結點)                                  | Melting point<br>(熔點)                    | Boiling point<br>(沸點)     | Density(at 20°C)(密度)<br>1.093                 |
| pH of concentrated solution<br>(濃液酸鹼值)<br>+/- 13         | pH of 2% solution<br>(2%溶液酸鹼值)<br>+/- 10 |                           | Surface tension(表面張力)<br>28.1 dynes/cm(at 2%) |
| Solubility in water(可溶性)<br>In all proportions           |                                          | Flash point(閃點)<br>None   | Other                                         |

Particular characteristics(特徵)

|                                    |                          |
|------------------------------------|--------------------------|
| Effective against AIDS<br>Yes● No○ | Tested AFNOR<br>Yes● No○ |
|------------------------------------|--------------------------|

Hazardous ingredients(成份)

|                                             |                |
|---------------------------------------------|----------------|
| Anionic and non-ionic surfacting agents 12% | Phosphates 13% |
| Polyphosphates 25%                          | Hydrates 20%   |
| Chlorinated agents 30%                      |                |

Classification (according to the E.C. recommendations)(分類)

|                  |       |     |                |      |     |
|------------------|-------|-----|----------------|------|-----|
| Inflammable(易燃性) | Yes○  | No● | Explosive(爆炸性) | Yes○ | No● |
| Corrosive(腐蝕性)   | Yes○  | No● | Oxidizing(氧化性) | Yes○ | No● |
| Toxic(毒性)        | Yes○  | No● | Harmful(傷害性)   | Yes○ | No● |
| Irritant(刺激性)    | Yes●* | No○ | Other          |      |     |

\*If used pure(假如使用純 RBS-35)

Reactivity Data

|                                     |                                            |
|-------------------------------------|--------------------------------------------|
| Stability(安定性)<br>Stable● Unstable○ | Incompatibility(相容性)<br>Non-ferrous metals |
|-------------------------------------|--------------------------------------------|
